

Broader Goals

A stable and prosperous Timor-Leste
(Aid Program goal)

Australia's program is high performing and continually improving
(M&E House goal)

End of Program Outcomes

DFAT is equipped with evidence and capacity to continually improve decision-making and tell a clear results story

Implementing partners generate and use evidence to learn, adapt and produce user-focus reports

Intermediate Outcomes

DFAT has an effective and efficient process for country-level strategy and reporting

DFAT reflect on evidence, learn and adapt the program

DFAT and partners have skills & knowledge to manage and use DMEL

DFAT and partners access and input data using a country-wide system

Implementing partners apply best practice MEL and reporting

Suppliers produce high quality and fit-for-purpose evaluation and research

Immediate Outcomes

M&E House and DFAT have a clear roadmap for the APPR and AIP and roles/responsibilities

DFAT values and commits to evidence-based reflective practice

All parties engage with the co-design and align with common system

Implementing partners trust and seek support from M&E House

DFAT and partners actively engage in evaluation capacity building

Implementing partners produce fit-for purpose and evidence-based reports

Implementing partners have fit-for purpose TOC and MEL systems in place

Implementing partners use information for learning and to inform decision making

Evaluations are well scoped, procured and managed

A growing pool of suppliers produce high quality DMEL inputs

Services

Performance of the whole of Aid Program

Supporting investment design

M&E Plans & Implementation

Investment-level learning and performance management.

Research, reviews and evaluations

M&E Capacity Building

Management Information System

Enabling Activities

M&E House builds trusted relationships, engages and communicates effectively

M&E House develops a best practice fit for purpose ECB strategy

M&E House monitors its own performance and continually improves

Principles

Lean and efficient

Influential

Ethical and transparent

Learning

Engagement

Systems thinking

DFAT policies and principles

Risks

Willingness to collaborate with M&E House

DFAT and implementing partners are willing to respond to evidence and learning

The base capacity within implementing partners and DFAT exists to implement improved DMEL

There is a sufficient pool of high quality M&E suppliers

DFAT is able to articulate their strategic information needs
